**PETITION UNDER 37 C.F.R. 1.47(a)
TO ALLOW SIGNATURE ON BEHALF OF
INVENTORS WHO REFUSE TO SIGN**

Dear Sir:

Pursuant to 37 C.F.R. § 1.47(a), the Applicants respectfully request the Office to allow the signing inventors Mr. Gregory Dils ("Mr. Dils"), Mr. Nik Neymer ("Mr. Neymeyer"), Mr. Tracy Meade ("Mr. Meade"), Mr. Dennis Essenmacher ("Mr. Essenmacher"), and Ms. Rebecca Lohr ("Ms. Lohr") make application on behalf of themselves and co-inventor Mr. Michael Kapolka ("Mr. Kapolka"), Mr. Sam Chang ("Mr. Chang"), Mr. Brian Crull ("Mr. Crull"), Mr. Kevin William ("Mr. Williams"), Mr. Andrew Smith ("Mr. Smith"), and Mr. Hassanayn Machlab El-Hajj ("Mr. Machlab El-Hajj") who refuse to join the above-listed application.

In support of this Petition, I, Julian F. Santos, declare as follows with respect to U.S. Patent Application Serial No. 10/823,271 ("present Application"), entitled "Vehicle Interactive System" I am an attorney at the law firm McDonnell, Boehnen, Hulbert and Berghoff LLP ("MBHB"), and an outside counsel representative for Applicant, NNT, Inc. I have personal knowledge of the following facts, and if called to testify, I would and could testify competently to the matters set forth herein.

McDONNELL BOEHNEN HULBERT & BERGHOFF LLP

MBHB: 03-050-E
S/N: 10/823,271
FILING DATE: APRIL 12, 2004

12/28/2004 MBERHE 00000066 132490 10823271
03 FC:1463 200.00 DA

1. On April 12, 2004, MBHB filed a utility patent application entitled "Vehicle-Interactive System," now assigned the aforementioned Application Serial No. 10/823,271 at the request of NNT, Inc., a subsidiary of Snap-on Incorporated and a Wisconsin corporation, having a place of business at 2329 East Walton Blvd. Auburn Hills, MI 48326. A copy of the filing receipt for the present application is attached hereto as Exhibit A.
2. As noted, Ms. Lohr and Messrs. Smith, Dils, Machlab El-Hajj, Neymeyer, Meade, Essenmacher, Kapolka, Chang, Crull and Williams are named as joint inventors ("inventors") on the present Application.
3. On June 25, 2004, the U.S. Patent and Trademark Office mailed a Notice to File Missing Parts of Nonprovisional Application for the above-referenced patent application, requesting submission of a signed Declaration (see Exhibit "B").
4. On August 6, 2004, MBHB forwarded to each of the inventors a package that included a copy of the filed application; a copy of a combined declaration and power of attorney; a copy of an assignment assigning to Snap-on Incorporated (the parent company of NNT, Inc.), its successors and assigns, the entire right, title and interest in the invention (or improvements of the undersigned disclosed in the application), and a instruction letter requesting review of the application and execution of the combined declaration and power of attorney and assignment by all named inventors. Unfortunately, Mr. Williams name was inadvertently left off the combined declaration and power of attorney and Assignment. On October 28, 2004, this defect was discovered and a new combined declaration and power of attorney and assignment were drafted.
5. On October 29, 2004, MBHB forwarded to each of the inventors an updated package that included a copy of the filed application; a copy of the new Combined Declaration and Power of Attorney ("DPOA"); a copy of an new Assignment assigning to Snap-on Incorporated (the parent company of NNT), its successors and assigns, the entire right, title and interest in the invention (or improvements of the undersigned disclosed in the Application), and a instruction letter requesting review of the application and execution of the new DPOA and new Assignment by all named inventors. Copies of the letters to each of the inventors are attached hereto as Exhibit C.

6. Ms. Lohr and Messrs. Dils, Neymeyer, Meade, and Essenmacher have since executed and returned the DPOA. A copy of the executed Declaration and Power of Attorney is attached hereto as Exhibit D.
7. While Mr. Lohr has not returned an executed Assignment, Messrs. Dils, Neymeyer, Meade, and Essenmacher have each executed and returned the Assignment. A copy the Assignment executed by is attached hereto as Exhibit E.
8. Mr. Smith executed an Employee Agreement between himself and Snap-on Incorporated, which requires Mr. Smith to assign to Snap-on Diagnostics and its successors and its assigns all inventions, improvements and discoveries relating to Snap-on Diagnostic's businesses or especially adapted for use in connection with Snap-on Diagnostic's businesses, made by him during his employment with Snap-on Diagnostics and within six months after termination of his employment with Snap-on Diagnostics. The Employee Agreement, which was in effect at the filing of the present application, also states that Mr. Smith agrees to assist Snap-on Diagnostics in obtaining, for its benefit patents in any and all countries, on such inventions, improvements and discoveries, including the prompt execution of applications for the patents and assignments thereof. A copy of the Employment Agreement between Snap-on Incorporated and Andrew Smith is attached hereto as Exhibit F.
9. To date, however, Messrs. Smith, Machlab El-Hajj, Kapolka, Chang, Crull and Williams have not executed and returned to MBHB or NNT, Inc. the DPOA or the Assignment for the present Application.
10. The present application claims the benefit of United States Provisional Application No. 60/462,583 ("583 application"), entitled "Vehicle Interactive System."
11. Ms. Lohr and Messrs. Kapolka, Chang, Williams, Crull, Essenmacher, Meade, Smith, Dils, Machlab El-Hajj, and Neymeyer are named inventors on the '583 application. A copy of the USPTO-stamped transmittal of the '583 application is attached hereto as Exhibit G.
12. In addition to claiming the benefit of '583 application, the present application is a continuation-in-part of and claims priority to United States Patent Application Serial No.

10/358,637 ("637 application"), which, in turn, claims priority to United States Provisional Patent Application Serial No. 60/354,673 ("673 application").

13. Ms. Lohr and Messrs. Kapolka, Chang, Williams, Crull, Essenmacher, and Meade are named inventors on the '637 application. A copy of the filing receipt for the '637 application is attached hereto as Exhibit H.
14. The '637 application has been accorded Rule 1.47(a) status to allow the signing inventors to proceed with the '637 application on behalf of themselves and the non-signing inventor, namely Mr. Chang. A copy of the Decision Granting Status under Rule 1.47 is attached hereto as Exhibit I. A copy of the petition under Rule 1.47(a) is available on request.
15. Messrs. Kapolka, Crull, Chang, Williams, and Essenmacher are named inventors on the '673 application.
16. Messrs. Kapolka, Crull, Chang, Williams, and Essenmacher executed an assignment and agreement for the invention to which the '673 and the present application is directed. In the executed assignment and agreement, they:
 - a. sold, assigned and transferred to WPI Micro Processor Systems, Inc., 6405 Nineteen Mile Road, Sterling Heights, MI 48314 as assignee, and its successors, assigns and legal representatives, the entire right, title and interest, for all countries in and to certain inventions relating to VEHICLE-INTERACTIVE SYSTEM described in an application for Letters Patent of the United States, filed as U.S. Serial No. 60/354,673 on February 5, 2002 and all the rights and privileges under any and all Letters Patent that may be granted therefore;
 - b. requested that any and all patents for said inventions be issued to said assignee, its successors, assigns and legal representatives, or to such nominees as it may designate;
 - c. agreed that, when requested, they will, without charge to said assignee but at its expense, sign all papers, take all rightful oaths, and do all acts which may be necessary, desirable or convenient for securing and maintaining patents for said inventions in any and all countries and for vesting title thereto in said assignee, its successors, assigns and legal representatives or nominees; and

- d. authorized and empowered said assignee, its successors, assigns and legal representatives or nominees, to invoke and claim for any application for patent or other form of protection for said inventions filed by it or them, the benefit of the right of priority provided by the International Convention for the Protection of Industrial Property, as amended, or by any convention which may henceforth be substituted for it, and to invoke and claim such right of priority without further written or oral authorization from us.

A true and accurate copy of this assignment and agreement is attached hereto as Exhibit J.

17. NEXIQ Technologies, Inc. (and its subsidiaries) filed "Chapter 11" bankruptcy petitions on October 12, 2002, during the pendency of the '673 application, for which the '637 and the present applications claim priority.
18. During the bankruptcy proceedings and pursuant to a purchase agreement, NEXIQ Technologies, Inc. (the parent company of WPI Micro Processor Systems, Inc.) assigned all right, title and interest in the present invention to NNT, Inc. on December 20, 2002 as evidenced by the attached assignment in Exhibit K. Other companies purchased the remaining Intellectual Property of NEXIQ Technologies, Inc. Consequently, NEXIQ Technologies, Inc. no longer exists as a corporation and was not merged into NNT, Inc.
19. Ms. Lohr and Messrs. Kapolka, Williams, Crull, Essenmacher, and Meade have executed a declaration and power of attorney for the '637 application as shown in Exhibit L. To date, however, Mr Chang has not executed a declaration and power of attorney for the '637 application.
20. Messrs. Kapolka, Crull, Essenmacher, and Meade have executed a second Assignment assigning to NNT, Inc. all their right, title and interest in the present invention as set forth in the '637 application and any other application filed thereon. A copy of this Assignment is attached hereto as Exhibit M.
21. Upon information and belief formed through review of the Application file and communication with personnel at NNT and Snap-on Incorporated, I learned that the last

known address for Messrs. Smith, Machlab El-Hajj, Kapolka, Chang, Crull, and Williams are as follows.

- a. The last known home address for Mr. Smith is 117 Crandall Court NE, Cedar Rapids, IA 52402
 - b. The last known home address for Mr. Machlab El-Hajj is 2680 Glen Hollow Court, Coralville, IA 52241.
 - c. The last known home address for Mr. Kapolka is 4858 Sunderland Rd., Sterling Heights, MI 48314.
 - d. The last known home address for Mr. Chang is 6926 Alden Dr., West Bloomfield, MI 48324.
 - e. The last known home address for Mr. Crull is 5514 Oak Park Drive, Clarkston, MI 48346.
 - f. The last known home address for Mr. Williams is 5514 Oak Park Drive, Clarkston, MI 48346.
22. Messrs. Machlab El-Hajj, Kapolka, Chang, Crull, and Williams no longer work for WPI Micro Processor Systems, Inc. or NEXIQ Technologies, Inc. and have never worked for NNT, Inc.
23. Mr. Smith no longer works for WPI Micro Processor Systems, Inc. NEXIQ Technologies, Inc., NNT, Inc. and/or Snap-on Incorporated.
24. As noted, I sent on October 29, 2004 the package via Federal Express (hereinafter "FedEx") to Mr. Smith at 117 Crandall Court NE, Cedar Rapids, IA 52402. The FedEx Tracking Information showing that the package was delivered on November 1, 2004 and signed for by "J. Smith" is attached hereto as Exhibit N.
25. On November 3, 2004, I held a teleconference with Mr. Smith to discuss the execution of the DPOA and Assignment for this Application (and for other applications for NNT, Inc.). Despite the terms of the Employment Agreement, Mr. Smith indicated that he would not be executing and/or returning any more paperwork for this Application or any other application for NNT, Inc.

26. With respect to obtaining from Mr. Machlab El-Hajj an executed DPOA and Assignment, I sent the package via FedEx to him at 2680 Glen Hollow Court, Coralville, IA 52241 on October 29, 2004. The FedEx Tracking Information showing that the package was delivered on November 2, 2004 and signed for by "A. Machlab" is attached hereto in Exhibit N.
27. Mr. Machlab El-Hajj had executed and returned the declaration and power of attorney and assignment that did not list Mr. Williams as an inventor.
28. On November 3, 2004, I held a teleconference with Mr. Machlab El-Hajj to discuss the execution of the DPOA and Assignment for this Application (and for other applications for NNT, Inc.). Mr. Machlab El-Hajj stated that he intended to execute the DPOA and Assignment for this Application (and for other applications for NNT, Inc.).
29. On December 20, 2004, I contacted Mr. Machlab El-Hajj via e-mail to again request execution and return of the DPOA and Assignment for this Application. A copy of the e-mail is attached hereto as Exhibit O.
30. To date, Mr. Machlab El-Hajj has not signed and returned to MBHB or NNT, Inc. the combined DPOA and/or Assignment for the present Application.
31. With respect to obtaining from Mr. Kapolka an executed DPOA and Assignment, I sent the package via FedEx to him at 4858 Sunderland Rd., Sterling Heights, MI 48314 on October 29, 2004. The FedEx Tracking Information showing that the package was delivered on November 2, 2004 and signed for by "M Kapolka" is attached hereto in Exhibit N.
32. Mr. Kapolka has previously indicated that he would not execute any paperwork for NNT, Inc. The fact supporting this are:
- a. During a conversation on May 20, 2003 regarding the '637 application and other cases related to the present Application, Mr. Kapolka mentioned to me that, although he signed the paperwork for the '637 application, he would not continue to sign paperwork for NNT, Inc. because he (i) no longer works for NEXIQ Technologies, Inc. or WPI Micro Processor Systems, Inc., and (ii) he has already assigned to WPI Micro Processor Systems, Inc. and/or NEXIQ Technologies, Inc.

all his right, title and interest in this and other inventions. Mr. Kapolka made such statements despite previously agreeing to the contrary in the assignment and agreement shown in Exhibit J.

- b. Mr. Kapolka has accepted the mailings. Yet, to date, Mr. Kapolka has not executed and returned this paperwork to MBHB or NNT, Inc.

33. With respect to obtaining from Mr. Chang an executed DPOA and Assignment, I sent the package via FedEx to him at 6926 Alden Dr., West Bloomfield, MI 48324 on October 29, 2004. The FedEx Tracking Information showing that the package was delivered on November 1, 2004 is attached hereto in Exhibit N. Mr. Chang has authorized a signature release so that FedEx packages delivered to him are deemed signed, and thus, the FedEx Tracking Information shows that the package was delivered in accordance with the signature release.

34. Like Mr. Kapolka, Mr. Chang has previously indicated that he would not execute any paperwork for NNT, Inc. The facts supporting this are:

- a. I telephoned Mr. Chang on April 9, 2003, May 20, 2003, July 25, 2003, August 20, 2003, and again on August 21, 2003 to attempt to get him to execute a Declaration and Power of Attorney and Assignment for the '637 application.
- b. On the first call, there was no answer on after at least 10 rings.
- c. On the second call, I spoke with someone (female) at the residence and requested Mr. Chang to return the call. Mr. Chang did not return the call.
- d. On the third call, I actually spoke with Mr. Chang. Mr. Chang said to me that he would not sign any papers for any application for NNT, Inc, despite agreeing to the contrary in the assignment and agreement shown in Exhibit J.
- e. On Wednesday, August 20, 2003, and on Thursday, August 21, 2003, before preparing a petition under Rule 1.47(a) for the '637 application, I again telephoned Mr. Chang's home and left messages requesting that Mr. Chang return my calls to confirm that he would not sign the paperwork. Mr. Chang has not returned my telephone calls, and those answering the phone at his residence gave

unresponsive answers when asked when Mr. Chang will be available to discuss these matters.

- f. On several other occasions, I sent to Mr. Chang similar packages for U.S. Patent Applications, including serial nos. 10/823,804 and 10/344,976, and Mr. Chang has refused the packages causing the courier to return the packages to MBHB.
- g. Like the other applications, Mr. Chang has not signed and returned to MBHB or NNT, Inc. the combined Declaration and Power of Attorney or any other paperwork for the present Application.

35. With respect to obtaining from Mr. Crull an executed DPOA and Assignment, I sent the package via FedEx to him at 5514 Oak Park Drive, Clarkston, MI 48346 on October 29, 2004. The FedEx Tracking Information showing that the package was delivered on November 2, 2004 and signed for by "S. Krull" is attached hereto in Exhibit N.

36. Mr. Crull has previously indicated that he would not execute any paperwork for NNT, Inc. The facts supporting this are:

- a. On several other occasions, I sent to Mr. Crull similar packages for U.S. Patent Applications, including serial nos. 10/823,271 and 10/344,976. While Mr. Crull has accepted the packages, and executed the earlier application, namely, serial no. 10/344,976, he has refused to return any executed paperwork to MBHB or NNT, Inc for the more recently sent packages.
- b. To date, Mr. Crull has not signed and returned to MBHB or NNT, Inc. the combined DPOA and/or Assignment for the present Application.

37. With respect to obtaining from Mr. Williams an executed DPOA and Assignment, I sent the package via FedEx to him at 5514 Oak Park Drive, Clarkston, MI 48346 on October 29, 2004. The FedEx Tracking Information showing that the package was delivered to that address on November 3, 2004 and signed for by "Z. Williams" is attached hereto in Exhibit N.

38. To date, Mr. Williams has not signed and returned to MBHB or NNT, Inc. the combined DPOA and/or Assignment for the present Application.

39. Since Messrs. Smith, Machlab El-Hajj, Kapolka, Chang, Crull, and Williams have not signed and returned the combined DPOA, the combined DPOA shown in Exhibit D includes empty signature blocks for Messrs. Smith, Machlab El-Hajj, Kapolka, Chang, Crull, and Williams. The Applicants believe that this satisfies the requirement of 37 C.F.R. § 1.47(a) that all the available joint inventors must (1) make oath or declaration on their own behalf as required by 37 CFR §§ 1.63 or 1.175 and (2) make oath or declaration on behalf of the nonsigning joint inventor as required by 37 CFR § 1.64. See M.P.E.P § 409.03(a)(A), which states "An oath or declaration signed by all the available joint inventors with the signature block of the nonsigning inventor(s) left blank may be treated as having been signed by all the available joint inventors on behalf of the nonsigning inventor(s), unless otherwise indicated."
40. NNT, Inc. will suffer irreparable harm if not allowed to apply for a patent for the above-listed Application because that the United States Patent and Trademark Office will otherwise hold the present Application abandoned without an executed Oath or Declaration.
41. I hereby declare that all statements made herein are of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made under penalty of perjury and that such willful false statements may jeopardize the validity of the specification or any patent issued thereon, and that this affidavit was executed on the 22 day of December 2004 in Chicago, Illinois, United States of America.
42. Pursuant to 37 C.F.R. §§ 1.47(a) and 1.17(g), Applicants submit herewith a check for the petition fee of \$200.

Respectfully submitted

Receipt is acknowledged of this regular Patent Application. It will be considered in its order and you will be notified as to the results of the examination. Be sure to provide the U.S. APPLICATION NUMBER, FILING DATE, NAME OF APPLICANT, and TITLE OF INVENTION when inquiring about this application. Fees transmitted by check or draft are subject to collection. Please verify the accuracy of the data presented on this receipt. If an error is noted on this Filing Receipt, please write to the Office of Initial Patent Examination's Filing Receipt Corrections, facsimile number 703-746-9195. Please provide a copy of this Filing Receipt with the changes noted thereon. If you received a "Notice to File Missing Parts" for this application, please submit any corrections to this Filing Receipt with your reply to the Notice. When the USPTO processes the reply to the Notice, the USPTO will generate another Filing Receipt incorporating the requested corrections (if appropriate).

**LICENSE FOR FOREIGN FILING UNDER
Title 35, United States Code, Section 184
Title 37, Code of Federal Regulations, 5.11 & 5.15**

GRANTED

The applicant has been granted a license under 35 U.S.C. 184, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" followed by a date appears on this form. Such licenses are issued in all applications where the conditions for issuance of a license have been met, regardless of whether or not a license may be required as set forth in 37 CFR 5.15. The scope and limitations of this license are set forth in 37 CFR 5.15(a) unless an earlier license has been issued under 37 CFR 5.15(b). The license is subject to revocation upon written notification. The date indicated is the effective date of the license, unless an earlier license of similar scope has been granted under 37 CFR 5.13 or 5.14.

This license is to be retained by the licensee and may be used at any time on or after the effective date thereof unless it is revoked. This license is automatically transferred to any related applications(s) filed under 37 CFR 1.53(d). This license is not retroactive.

The grant of a license does not in any way lessen the responsibility of a licensee for the security of the subject matter as imposed by any Government contract or the provisions of existing laws relating to espionage and the national security or the export of technical data. Licensees should apprise themselves of current regulations especially with respect to certain countries, of other agencies, particularly the Office of Defense Trade Controls, Department of State (with respect to Arms, Munitions and Implements of War (22 CFR 121-128)); the Office of Export Administration, Department of Commerce (15 CFR 370.10 (j)); the Office of Foreign Assets Control, Department of Treasury (31 CFR Parts 500+) and the Department of Energy.

NOT GRANTED

No license under 35 U.S.C. 184 has been granted at this time, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" DOES NOT appear on this form. Applicant may still petition for a license under 37 CFR 5.12, if a license is desired before the expiration of 6 months from the filing date of the application. If 6 months has lapsed from the filing date of this application and the licensee has not received any indication of a secrecy order under 35 U.S.C. 181, the licensee may foreign file the application pursuant to 37 CFR 5.15(b).

NOTICE TO FILE MISSING PARTS OF NONPROVISIONAL APPLICATION

FILED UNDER 37 CFR 1.53(b)

*Filing Date Granted***Items Required To Avoid Abandonment:**

An application number and filing date have been accorded to this application. The item(s) indicated below, however, are missing. Applicant is given **TWO MONTHS** from the date of this Notice within which to file all required items and pay any fees required below to avoid abandonment. Extensions of time may be obtained by filing a petition accompanied by the extension fee under the provisions of 37 CFR 1.136(a).

- The oath or declaration is missing.
A properly signed oath or declaration in compliance with 37 CFR 1.63, identifying the application by the above Application Number and Filing Date, is required.
- To avoid abandonment, a late filing fee or oath or declaration surcharge as set forth in 37 CFR 1.16(e) of \$130 for a non-small entity, must be submitted with the missing items identified in this letter.

SUMMARY OF FEES DUE:

Total additional fee(s) required for this application is **\$130** for a Large Entity

- **\$130** Late oath or declaration Surcharge.

Replies should be mailed to: Mail Stop Missing Parts
 Commissioner for Patents
 P.O. Box 1450

Issue Number: n/a
Issued Date: n/a
MBHB Case No.: 03-050-E
Snap-On Invention No.: NNT-01867

Dear Ms. Lohr:

With regard to the above referenced U.S. Patent Application, we enclose a copy of the application, a revised combined Declaration and Power of Attorney (DPOA), and a revised Assignment. The revised documents now include Mr. Williams as an inventor. Mr. Williams name was inadvertently omitted from the previous version of the DPOA and Assignment.

If you have not already done so, please review the application, and then both sign and date the revised DPOA. If any of your personal information in the revised DPOA is incorrect (e.g., a postal address), please make the correction in permanent ink. Then initial and date the correction (in addition to signing and dating these papers where indicated).

The revised Assignment should be executed before a Notary Public or other authorized officer. Please note that notarization of an Assignment is not required. However, there are benefits to notarization and, therefore, we recommend it. Specifically, under U.S. law (35 U.S.C. § 261):

A certificate of acknowledgment under the hand and official seal of a person authorized to administer oaths within the United States, or, in a foreign country, of a diplomatic or consular officer of the United States or an officer authorized to administer oaths whose authority is proved by a certificate of a diplomatic or consular officer of the United States, or apostille of an official designated by a foreign country which, by treaty or convention, accords like effect to apostilles of designated officials in the United States, shall be prima facie evidence of the execution of an assignment, grant or conveyance of a patent or application for patent.

Witnessing is not sufficient to obtain the benefits of the statute; official apostille or notarization is required.

Please return the revised DPOA as soon as possible, but not later than November 15, 2004. We will file the revised DPOA with the response to the Notice to File Missing Parts we received from the Patent and Trademark Office. We will also file the revised Assignment with the Patent Office for recordation.

We remind you that under the U.S. Patent Laws, each person associated with the filing and prosecution of a patent application (including inventors and attorneys) has a duty of candor and good faith in dealing with the Office, including disclosing to the Patent Office all information of which the person is aware that may be considered by an Examiner to be "material" to patentability. We enclose an information sheet regarding this Duty of Disclosure, which should be read by those involved in the filing and prosecution of the application. As described, please provide us with copies of all publications and other information known to the inventors, attorneys, or anyone else involved in preparation and prosecution of the application that may be material to patentability. This includes the art cited in an international search report (ISR) as well as art cited by any patent office in a non-US counterpart application. We will then submit that information to the PTO in an Information Disclosure Statement.

Please note that non-English language documents will not be considered by the Patent Office. For non-English language publications, the Patent Office requires submission of

either an English language translation or concise summary of the relevance of the document prepared by the person most knowledgeable of the document's subject matter. An abstract may be acceptable if it is equivalent to the concise summary. Please be aware, however, that case law indicates that satisfying the minimum technical requirements of an Information Disclosure Statement is not a safe harbor against a charge of inequitable conduct. It is prudent, therefore, to prepare and file a full translation of non-English language publications to avoid any issues regarding whether the duty of disclosure was satisfied.

Should you have any questions, please do not hesitate to contact me.

Best regards,

A handwritten signature in black ink, appearing to read "Julian F. Santos". The signature is fluid and cursive, with the first name "Julian" and last name "Santos" clearly distinguishable.

Enclosures

Duty of Disclosure

All those substantively involved in the prosecution of this patent application (including inventors and their attorneys and agents) are under an obligation to disclose to the United States Patent and Trademark Office any patents, publications, or other information known to be material to the patentability of the claimed invention. This obligation continues until the application becomes abandoned or issues as a patent; thus, information learned between filing of the application and abandonment or issuance must be disclosed as well.

Information is "material" if it is non-cumulative of information already of record and supports a position of unpatentability of the claimed invention or is contrary to a position taken by the applicant(s). Such information may include:

- (a) knowledge or use of the invention by others in the United States;
- (b) patents, co-pending U.S. applications, and other publications (worldwide) disclosing the invention or relating to the invention or to one or more elements of the invention; and
- (c) public use, sale, or offer for sale of the invention in the United States.

Accordingly, we request that you provide us with all such information, even if it is limited to publications cited in the application itself. Please consider that documents cited by the U.S. Patent and Trademark Office and/or corresponding foreign patent offices in related applications (including PCT applications) likely should be disclosed. We will then disclose the information to the Patent Office in the form of an Information Disclosure Statement ("IDS").

The duty of disclosure continues throughout the pendency of the application. Thus, information material to patentability discovered later, during prosecution of the application, must be disclosed as well.

We must provide the Patent Office with copies of publications cited in the IDS. While generally we can obtain copies of the publications, it is frequently less costly if you provide us with copies. For non-English language publications, the Patent Office requires submission of either an English language translation or concise summary of the relevance of the document prepared by the person most knowledgeable of the document's subject matter. An abstract may be acceptable if it is equivalent to the concise summary. Please be aware, however, that case law indicates that satisfying the minimum technical requirements of an Information Disclosure Statement is not a safe harbor against a charge of inequitable conduct. It is prudent, therefore, to prepare and file a full translation of non-English language publications to avoid any issues regarding whether the duty of disclosure was satisfied. If you supply us with non-English language documents, please instruct us on how you want us to handle them.

MBHB Case No.: 03-050-E
Snap-On Invention No.: NNT-01867

Dear Mr. Smith:

With regard to the above referenced U.S. Patent Application, we enclose a copy of the application, a revised combined Declaration and Power of Attorney (DPOA), and a revised Assignment. The revised documents now include Mr. Williams as an inventor. Mr. Williams name was inadvertently omitted from the previous version of the DPOA and Assignment.

If you have not already done so, please review the application, and then both sign and date the revised DPOA. If any of your personal information in the revised DPOA is incorrect (e.g., a postal address), please make the correction in permanent ink. Then initial and date the correction (in addition to signing and dating these papers where indicated).

The revised Assignment should be executed before a Notary Public or other authorized officer. Please note that notarization of an Assignment is not required. However, there are benefits to notarization and, therefore, we recommend it. Specifically, under U.S. law (35 U.S.C. § 261):

A certificate of acknowledgment under the hand and official seal of a person authorized to administer oaths within the United States, or, in a foreign country, of a diplomatic or consular officer of the United States or an officer authorized to administer oaths whose authority is proved by a certificate of a diplomatic or consular officer of the United States, or apostille of an official designated by a foreign country which, by treaty or convention, accords like effect to apostilles of designated officials in the United States, shall be prima facie evidence of the execution of an assignment, grant or conveyance of a patent or application for patent.

Witnessing is not sufficient to obtain the benefits of the statute; official apostille or notarization is required.

Please return the revised DPOA as soon as possible, but not later than November 15, 2004. We will file the revised DPOA with the response to the Notice to File Missing Parts we received from the Patent and Trademark Office. We will also file the revised Assignment with the Patent Office for recordation.

We remind you that under the U.S. Patent Laws, each person associated with the filing and prosecution of a patent application (including inventors and attorneys) has a duty of candor and good faith in dealing with the Office, including disclosing to the Patent Office all information of which the person is aware that may be considered by an Examiner to be "material" to patentability. Dear Mr. Meade:

With regard to the above referenced U.S. Patent Application, we enclose a copy of the application, a revised combined Declaration and Power of Attorney (DPOA), and a revised Assignment. The revised documents now include Mr. Williams as an inventor. Mr. Williams name was inadvertently omitted from the previous version of the DPOA and Assignment.

If you have not already done so, please review the application, and then both sign and date the revised DPOA. If any of your personal information in the revised DPOA is incorrect (e.g., a postal address), please make the correction in permanent ink. Then initial and date the correction (in addition to signing and dating these papers where indicated).

The revised Assignment should be executed before a Notary Public or other authorized officer. Please note that notarization of an Assignment is not required. However, there are benefits to notarization and, therefore, we recommend it. Specifically, under U.S. law (35 U.S.C. § 261):

A certificate of acknowledgment under the hand and official seal of a person authorized to administer oaths within the United States, or, in a foreign country, of a diplomatic or consular officer of the United States or an officer authorized to administer oaths whose authority is proved by a certificate of a diplomatic or consular officer of the United States, or apostille of an official designated by a foreign country which, by treaty or convention, accords like effect to apostilles of designated officials in the United States, shall be prima facie evidence of the execution of an assignment, grant or conveyance of a patent or application for patent.

Witnessing is not sufficient to obtain the benefits of the statute; official apostille or notarization is required.

Please return the revised DPOA as soon as possible, but not later than November 15, 2004. We will file the revised DPOA with the response to the Notice to File Missing Parts we received from the Patent and Trademark Office. We will also file the revised Assignment with the Patent Office for recordation.

We remind you that under the U.S. Patent Laws, each person associated with the filing and prosecution of a patent application (including inventors and attorneys) has a duty of candor and good faith in dealing with the Office, including disclosing to the Patent Office all information of which the person is aware that may be considered by an Examiner to be "material" to patentability. We enclose an information sheet regarding this Duty of Disclosure, which should be read by those involved in the filing and prosecution of the application. As described, please provide us with copies of all publications and other information known to the inventors, attorneys, or anyone else involved in preparation and prosecution of the application that may be material to patentability. This includes the art cited in an international search report (ISR) as well as art cited by any patent office in a non-US counterpart application. We will then submit that information to the PTO in an Information Disclosure Statement.

Please note that non-English language documents will not be considered by the Patent Office. For non-English language publications, the Patent Office requires submission of

either an English language translation or concise summary of the relevance of the document prepared by the person most knowledgeable of the document's subject matter. An abstract may be acceptable if it is equivalent to the concise summary. Please be aware, however, that case law indicates that satisfying the minimum technical requirements of an Information Disclosure Statement is not a safe harbor against a charge of inequitable conduct. It is prudent, therefore, to prepare and file a full translation of non-English language publications to avoid any issues regarding whether the duty of disclosure was satisfied.

Should you have any questions, please do not hesitate to contact me.

Best regards,

A handwritten signature in black ink, appearing to read "Julian F. Santos". The signature is fluid and cursive, with the first name "Julian" and last name "Santos" clearly distinguishable.

Enclosures

Duty of Disclosure

All those substantively involved in the prosecution of this patent application (including inventors and their attorneys and agents) are under an obligation to disclose to the United States Patent and Trademark Office any patents, publications, or other information known to be material to the patentability of the claimed invention. This obligation continues until the application becomes abandoned or issues as a patent; thus, information learned between filing of the application and abandonment or issuance must be disclosed as well.

Information is "material" if it is non-cumulative of information already of record and supports a position of unpatentability of the claimed invention or is contrary to a position taken by the applicant(s). Such information may include:

- (a) knowledge or use of the invention by others in the United States;
- (b) patents, co-pending U.S. applications, and other publications (worldwide) disclosing the invention or relating to the invention or to one or more elements of the invention;
and
- (c) public use, sale, or offer for sale of the invention in the United States.

Accordingly, we request that you provide us with all such information, even if it is limited to publications cited in the application itself. Please consider that documents cited by the U.S. Patent and Trademark Office and/or corresponding foreign patent offices in related applications (including PCT applications) likely should be disclosed. We will then disclose the information to the Patent Office in the form of an Information Disclosure Statement ("IDS").

The duty of disclosure continues throughout the pendency of the application. Thus, information material to patentability discovered later, during prosecution of the application, must be disclosed as well.

We must provide the Patent Office with copies of publications cited in the IDS. While generally we can obtain copies of the publications, it is frequently less costly if you provide us with copies. For non-English language publications, the Patent Office requires submission of either an English language translation or concise summary of the relevance of the document prepared by the person most knowledgeable of the document's subject matter. An abstract may be acceptable if it is equivalent to the concise summary. Please be aware, however, that case law indicates that satisfying the minimum technical requirements of an Information Disclosure Statement is not a safe harbor against a charge of inequitable conduct. It is prudent, therefore, to prepare and file a full translation of non-English language publications to avoid any issues regarding whether the duty of disclosure was satisfied. If you supply us with non-English language documents, please instruct us on how you want us to handle them.

Dear Mr. Essenmacher:

With regard to the above referenced U.S. Patent Application, we enclose a copy of the application, a revised combined Declaration and Power of Attorney (DPOA), and a revised Assignment. The revised documents now include Mr. Williams as an inventor. Mr. Williams name was inadvertently omitted from the previous version of the DPOA and Assignment.

If you have not already done so, please review the application, and then both sign and date the revised DPOA. If any of your personal information in the revised DPOA is incorrect (e.g., a postal address), please make the correction in permanent ink. Then initial and date the correction (in addition to signing and dating these papers where indicated).

The revised Assignment should be executed before a Notary Public or other authorized officer. Please note that notarization of an Assignment is not required. However, there are benefits to notarization and, therefore, we recommend it. Specifically, under U.S. law (35 U.S.C. § 261):

A certificate of acknowledgment under the hand and official seal of a person authorized to administer oaths within the United States, or, in a foreign country, of a diplomatic or consular officer of the United States or an officer authorized to administer oaths whose authority is proved by a certificate of a diplomatic or consular officer of the United States, or apostille of an official designated by a foreign country which, by treaty or convention, accords like effect to apostilles of designated officials in the United States, shall be prima facie evidence of the execution of an assignment, grant or conveyance of a patent or application for patent.

Witnessing is not sufficient to obtain the benefits of the statute; official apostille or notarization is required.

Please return the revised DPOA as soon as possible, but not later than November 15, 2004. We will file the revised DPOA with the response to the Notice to File Missing Parts we received from the Patent and Trademark Office. We will also file the revised Assignment with the Patent Office for recordation.

We remind you that under the U.S. Patent Laws, each person associated with the filing and prosecution of a patent application (including inventors and attorneys) has a duty of candor and good faith in dealing with the Office, including disclosing to the Patent Office all information of which the person is aware that may be considered by an Examiner to be "material" to patentability. Duty of Disclosure

All those substantively involved in the prosecution of this patent application (including inventors and their attorneys and agents) are under an obligation to disclose to the United States Patent and Trademark Office any patents, publications, or other information known to be material to the patentability of the claimed invention. This obligation continues until the application becomes abandoned or issues as a patent; thus, information learned between filing of the application and abandonment or issuance must be disclosed as well.

Information is “material” if it is non-cumulative of information already of record and supports a position of unpatentability of the claimed invention or is contrary to a position taken by the applicant(s). Such information may include:

- (a) knowledge or use of the invention by others in the United States;
- (b) patents, co-pending U.S. applications, and other publications (worldwide) disclosing the invention or relating to the invention or to one or more elements of the invention; and
- (c) public use, sale, or offer for sale of the invention in the United States.

Accordingly, we request that you provide us with all such information, even if it is limited to publications cited in the application itself. Please consider that documents cited by the U.S. Patent and Trademark Office and/or corresponding foreign patent offices in related applications (including PCT applications) likely should be disclosed. We will then disclose the information to the Patent Office in the form of an Information Disclosure Statement (“IDS”).

The duty of disclosure continues throughout the pendency of the application. Thus, information material to patentability discovered later, during prosecution of the application, must be disclosed as well.

We must provide the Patent Office with copies of publications cited in the IDS. While generally we can obtain copies of the publications, it is frequently less costly if you provide us with copies. For non-English language publications, the Patent Office requires submission of either an English language translation or concise summary of the relevance of the document prepared by the person most knowledgeable of the document’s subject matter. An abstract may be acceptable if it is equivalent to the concise summary. Please be aware, however, that case law indicates that satisfying the minimum technical requirements of an Information Disclosure Statement is not a safe harbor against a charge of inequitable conduct. It is prudent, therefore, to prepare and file a full translation of non-English language publications to avoid any issues regarding whether the duty of disclosure was satisfied. If you supply us with non-English language documents, please instruct us on how you want us to handle them.

MBHB Case No.: 03-050-E
Snap-On Invention No.: NNT-01867

Dear Mr. Williams:

With regard to the above referenced U.S. Patent Application, we enclose a copy of the application, a revised combined Declaration and Power of Attorney (DPOA), and a revised Assignment. The revised documents now include Mr. Williams as an inventor. Mr. Williams name was inadvertently omitted from the previous version of the DPOA and Assignment.

If you have not already done so, please review the application, and then both sign and date the revised DPOA. If any of your personal information in the revised DPOA is incorrect (e.g., a postal address), please make the correction in permanent ink. Then initial and date the correction (in addition to signing and dating these papers where indicated).

The revised Assignment should be executed before a Notary Public or other authorized officer. Please note that notarization of an Assignment is not required. However, there are benefits to notarization and, therefore, we recommend it. Specifically, under U.S. law (35 U.S.C. § 261):

A certificate of acknowledgment under the hand and official seal of a person authorized to administer oaths within the United States, or, in a foreign country, of a diplomatic or consular officer of the United States or an officer authorized to administer oaths whose authority is proved by a certificate of a diplomatic or consular officer of the United States, or apostille of an official designated by a foreign country which, by treaty or convention, accords like effect to apostilles of designated officials in the United States, shall be prima facie evidence of the execution of an assignment, grant or conveyance of a patent or application for patent.

Witnessing is not sufficient to obtain the benefits of the statute; official apostille or notarization is required.

Please return the revised DPOA as soon as possible, but not later than November 15, 2004. We will file the revised DPOA with the response to the Notice to File Missing Parts we received from the Patent and Trademark Office. We will also file the revised Assignment with the Patent Office for recordation.

We remind you that under the U.S. Patent Laws, each person associated with the filing and prosecution of a patent application (including inventors and attorneys) has a duty of candor and good faith in dealing with the Office, including disclosing to the Patent Office all information of which the person is aware that may be considered by an Examiner to be "material" to patentability. We enclose an information sheet regarding this Duty of Disclosure, which should be read by those involved in the filing and prosecution of the application. As described, please provide us with copies of all publications and other information known to the inventors, attorneys, or anyone else involved in preparation and prosecution of the application that may be material to patentability. This includes the art cited in an international search report (ISR) as well as art cited by any patent office in a non-US counterpart application. We will then submit that information to the PTO in an Information Disclosure Statement.

Please note that non-English language documents will not be considered by the Patent Office. For non-English language publications, the Patent Office requires submission of

either an English language translation or concise summary of the relevance of the document prepared by the person most knowledgeable of the document's subject matter. An abstract may be acceptable if it is equivalent to the concise summary. Please be aware, however, that case law indicates that satisfying the minimum technical requirements of an Information Disclosure Statement is not a safe harbor against a charge of inequitable conduct. It is prudent, therefore, to prepare and file a full translation of non-English language publications to avoid any issues regarding whether the duty of disclosure was satisfied.

Should you have any questions, please do not hesitate to contact me.

Best regards,

A handwritten signature in black ink, appearing to read "Julian F. Santos". The signature is fluid and cursive, with the first name "Julian" being more prominent and the last name "Santos" following in a similar style.

Julian F. Santos

Enclosures

Duty of Disclosure

All those substantively involved in the prosecution of this patent application (including inventors and their attorneys and agents) are under an obligation to disclose to the United States Patent and Trademark Office any patents, publications, or other information known to be material to the patentability of the claimed invention. This obligation continues until the application becomes abandoned or issues as a patent; thus, information learned between filing of the application and abandonment or issuance must be disclosed as well.

Information is “material” if it is non-cumulative of information already of record and supports a position of unpatentability of the claimed invention or is contrary to a position taken by the applicant(s). Such information may include:

- (a) knowledge or use of the invention by others in the United States;
- (b) patents, co-pending U.S. applications, and other publications (worldwide) disclosing the invention or relating to the invention or to one or more elements of the invention; and
- (c) public use, sale, or offer for sale of the invention in the United States.

Accordingly, we request that you provide us with all such information, even if it is limited to publications cited in the application itself. Please consider that documents cited by the U.S. Patent and Trademark Office and/or corresponding foreign patent offices in related applications (including PCT applications) likely should be disclosed. We will then disclose the information to the Patent Office in the form of an Information Disclosure Statement (“IDS”).

The duty of disclosure continues throughout the pendency of the application. Thus, information material to patentability discovered later, during prosecution of the application, must be disclosed as well.

We must provide the Patent Office with copies of publications cited in the IDS. While generally we can obtain copies of the publications, it is frequently less costly if you provide us with copies. For non-English language publications, the Patent Office requires submission of either an English language translation or concise summary of the relevance of the document prepared by the person most knowledgeable of the document’s subject matter. An abstract may be acceptable if it is equivalent to the concise summary. Please be aware, however, that case law indicates that satisfying the minimum technical requirements of an Information Disclosure Statement is not a safe harbor against a charge of inequitable conduct. It is prudent, therefore, to prepare and file a full translation of non-English language publications to avoid any issues regarding whether the duty of disclosure was satisfied. If you supply us with non-English language documents, please instruct us on how you want us to handle them.

EXHIBIT D

DECLARATION AND POWER OF ATTORNEY FOR PATENT APPLICATION

As a below named inventor, I hereby declare that:

My residence, post office address and citizenship are as stated below next to my name.

I believe I am the original, first and sole inventor (if only one name is listed below) or an original, first and joint inventor (if plural names are listed below) of the subject matter which is claimed and for which a patent is sought on the invention entitled:

VEHICLE-INTERACTIVE SYSTEM

the specification of which is attached hereto unless the following space is checked:

☒ was filed on April 12, 2004 as United States Application Serial Number 10/823,271.

I hereby state that I have reviewed and understand the contents of the above-identified specification, including the claims, as amended by any amendment referred to above.

I acknowledge the duty to disclose information which is material to patentability as defined in 37 CFR § 1.56.

I hereby claim the benefit under 35 U.S.C. § 119(e) of any United States provisional application(s) listed below:

	<u>Application Number</u>	<u>Filing Date</u>
1.	60/462,561	4/11/2003
2.	60/462,583	4/11/2003
3.	60/462,582	4/11/2003

I hereby claim the benefit under 35 U.S.C. § 120 of any United States application(s), or § 365(c) of any PCT international application designating the United States, listed below and, insofar as the subject matter of each of the claims of this application is not disclosed in the prior United States or PCT international application in the manner provided by the first paragraph of 35 U.S.C. § 112, I acknowledge the duty to disclose information which is material to patentability as defined in 37 C.F.R. § 1.56 which became available between the filing date of the prior application and the national or PCT international filing date of this application.

	<u>Application Number</u>	<u>Filing Date</u>	<u>Status: patented, pending, abandoned</u>
1.	10/358,637	02/05/2003	pending

I hereby appoint the practitioners associated with the Customer Number provided below to prosecute this application and to transact all business in the Patent and Trademark Office connected therewith, and I direct that all correspondence be addressed to that Customer Number.

Customer Number: 020306
Principal attorney or agent: Julian F. Santos
Telephone number: 312-913-0001

I hereby declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code and that such willful false statements may jeopardize the validity of the application or any patent issued thereon.

**DECLARATION AND POWER OF ATTORNEY
FOR PATENT APPLICATION**

As a below named inventor, I hereby declare that:

My residence, post office address and citizenship are as stated below next to my name.

I believe I am the original, first and sole inventor (if only one name is listed below) or an original, first and joint inventor (if plural names are listed below) of the subject matter which is claimed and for which a patent is sought on the invention entitled:

VEHICLE-INTERACTIVE SYSTEM

the specification of which is attached hereto unless the following space is checked:

☒ was filed on April 12, 2004 as United States Application Serial Number 10/823,271.

I hereby state that I have reviewed and understand the contents of the above-identified specification, including the claims, as amended by any amendment referred to above.

I acknowledge the duty to disclose information which is material to patentability as defined in 37 CFR § 1.56.

I hereby claim the benefit under 35 U.S.C. § 119(e) of any United States provisional application(s) listed below:

	<u>Application Number</u>	<u>Filing Date</u>
1.	60/462,561	4/11/2003
2.	60/462,583	4/11/2003
3.	60/462,582	4/11/2003

I hereby claim the benefit under 35 U.S.C. § 120 of any United States application(s), or § 365(c) of any PCT international application designating the United States, listed below and, insofar as the subject matter of each of the claims of this application is not disclosed in the prior United States or PCT international application in the manner provided by the first paragraph of 35 U.S.C. § 112, I acknowledge the duty to disclose information which is material to patentability as defined in 37 C.F.R. § 1.56 which became available between the filing date of the prior application and the national or PCT international filing date of this application.

	<u>Application Number</u>	<u>Filing Date</u>	<u>Status: patented, pending, abandoned</u>
1.	10/358,637	02/05/2003	pending

I hereby appoint the practitioners associated with the Customer Number provided below to prosecute this application and to transact all business in the Patent and Trademark Office connected therewith, and I direct that all correspondence be addressed to that Customer Number.

Customer Number: **020306**

Principal attorney or agent: Julian F. Santos

Telephone number: 312-913-0001

I hereby declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code and that such willful false statements may jeopardize the validity of the application or any patent issued thereon.

EXHIBIT E

ASSIGNMENT

Case No.: 03-050-E

Serial No.: 10/823,804

Inventors: Michael Kapolka, Sam Chang, Andrew Smith,
Brian Crull, Dennis Essenmacher, Tracy Meade,
Rebecca Lohr, Gregory A. Dils, Hassanayn Machlab El-Hajj,
Nik Neymeyer, and Kevin Williams

Filing Date: April 12, 2004

In consideration of One Dollar (\$1.00) and other good and valuable considerations in hand paid, the receipt and sufficiency whereof are hereby acknowledged, the undersigned hereby assigns to:

Snap-on Incorporated

its successors and assigns, the entire right, title and interest in the invention or improvements of the undersigned disclosed in a United States Patent Application entitled:

SYSTEM, METHOD AND COMPUTER PROGRAM PRODUCT FOR REMOTE VEHICLE DIAGNOSTICS, TELEMATICS, MONITORING, CONFIGURING, AND REPROGRAMMING

and identified as:

Case No. 03-050-E

in the offices of McDONNELL BOEHNEN HULBERT & BERGHOFF and in said application and any and all other applications, both United States and foreign, which the undersigned may file, either solely or jointly with others, on said invention or improvements, and in any and all Letters Patent of the United States and foreign countries, which may be obtained on any of said applications, and in any reissue or extension of such patents, and further assigns to said assignee the priority right provided by the International Convention.

The undersigned hereby authorizes and requests the Commissioner for Patents to issue any Patent on said invention or improvements to said assignee.

The undersigned hereby authorizes and requests the attorneys of record in said application to insert in this assignment the filing date and/or serial number of said application when officially known.

The undersigned warrants himself to be the owner of the entire right, title and interest in said invention or improvements and to have the right to make this assignment, and further warrants that there are no outstanding prior assignments, licenses, or other encumbrances on the interest herein assigned.

For said considerations the undersigned hereby agrees, upon the request and at the expense of said assignee, its successors and assigns, to execute any and all divisional, continuation and substitute applications for said invention or improvements, and any necessary oath, affidavit or declaration relating thereto, and any application for the reissue or extension of any Letters Patent that may be granted upon said application, and any and all applications and other documents for Letters Patent in foreign countries on said invention or improvements, that said assignee, its successors or assigns may deem necessary or

expedient, and for the said considerations the undersigned authorizes said assignee to apply for patents for said invention or improvements in its own name in such countries where such procedure is proper and further agrees, upon the request of said assignee, its successors and assigns, to cooperate to the best of the ability of the undersigned with said assignee, its successors and assigns, in any proceedings or transactions involving such applications or patents, including the preparation and execution of preliminary statements, giving and producing evidence, and performing any and all other acts necessary to obtain, maintain and enforce any and all issued Patent(s) of said invention, both United States and foreign, and vest all rights therein hereby conveyed in the assignee, its successors and assigns, whereby any and all issued Patent(s) of said invention will be held and enjoyed by the said assignee, its successors and assigns, to the full end of the term for which any and all issued Patent(s) of said invention will be granted, as fully and entirely as the same would have been held and enjoyed by the undersigned if this assignment had not been made.

ASSIGNMENT

Case No.: 03-050-E

Serial No.: 10/823,804

Inventors: Michael Kapolka, Sam Chang, Andrew Smith,
Brian Crull, Dennis Essenmacher, Tracy Meade,
Rebecca Lohr, Gregory A. Dils, Hassanayn Machlab El-Hajj,
Nik Neymeyer, and Kevin Williams

Filing Date: April 12, 2004

In consideration of One Dollar (\$1.00) and other good and valuable considerations in hand paid, the receipt and sufficiency whereof are hereby acknowledged, the undersigned hereby assigns to:

Snap-on Incorporated

its successors and assigns, the entire right, title and interest in the invention or improvements of the undersigned disclosed in a United States Patent Application entitled:

SYSTEM, METHOD AND COMPUTER PROGRAM PRODUCT FOR REMOTE VEHICLE DIAGNOSTICS, TELEMATICS, MONITORING, CONFIGURING, AND REPROGRAMMING

and identified as:

Case No. 03-050-E

in the offices of MCDONNELL BOEHNEN HULBERT & BERGHOFF and in said application and any and all other applications, both United States and foreign, which the undersigned may file, either solely or jointly with others, on said invention or improvements, and in any and all Letters Patent of the United States and foreign countries, which may be obtained on any of said applications, and in any reissue or extension of such patents, and further assigns to said assignee the priority right provided by the International Convention.

The undersigned hereby authorizes and requests the Commissioner for Patents to issue any Patent on said invention or improvements to said assignee.

The undersigned hereby authorizes and requests the attorneys of record in said application to insert in this assignment the filing date and/or serial number of said application when officially known.

The undersigned warrants himself to be the owner of the entire right, title and interest in said invention or improvements and to have the right to make this assignment, and further warrants that there are no outstanding prior assignments, licenses, or other encumbrances on the interest herein assigned.

For said considerations the undersigned hereby agrees, upon the request and at the expense of said assignee, its successors and assigns, to execute any and all divisional, continuation and substitute applications for said invention or improvements, and any necessary oath, affidavit or declaration relating thereto, and any application for the reissue or extension of any Letters Patent that may be granted upon said application, and any and all applications and other documents for Letters Patent in foreign countries on said invention or improvements, that said assignee, its successors or assigns may deem necessary or

expedient, and for the said considerations the undersigned authorizes said assignee to apply for patents for said invention or improvements in its own name in such countries where such procedure is proper and further agrees, upon the request of said assignee, its successors and assigns, to cooperate to the best of the ability of the undersigned with said assignee, its successors and assigns, in any proceedings or transactions involving such applications or patents, including the preparation and execution of preliminary statements, giving and producing evidence, and performing any and all other acts necessary to obtain, maintain and enforce any and all issued Patent(s) of said invention, both United States and foreign, and vest all rights therein hereby conveyed in the assignee, its successors and assigns, whereby any and all issued Patent(s) of said invention will be held and enjoyed by the said assignee, its successors and assigns, to the full end of the term for which any and all issued Patent(s) of said invention will be granted, as fully and entirely as the same would have been held and enjoyed by the undersigned if this assignment had not been made.

Snap-on
EMPLOYEE AGREEMENT

The undersigned Employee agrees as follows as part of his/her employment:

I shall not disclose nor utilize any confidential information relating to Snap-on Diagnostics' business (including trade secrets and other proprietary information) for my own benefit or the benefit of any third person. I shall not remove, without authorization, from Snap-on Diagnostics' property, any documents containing any such confidential information (drawings, bulletins, reproductions of any confidential information, etc.) or other documents prepared in conjunction with Snap-on Diagnostics' business. These obligations shall continue both during and after termination of my employment with Snap-on Diagnostics.

I shall assign and do hereby assign to Snap-on Diagnostics, its successors and assigns, without payment of any further consideration, all inventions, improvements, and discoveries relating to Snap-on Diagnostics' business or especially adapted for use in connection with Snap-on Diagnostics' business, made by me during employment with Snap-on Diagnostics and within six months after termination of my employment with Snap-on Diagnostics. I agree to assist Snap-on Diagnostics in obtaining, for its benefit patents in any and all countries on such inventions, improvements and discoveries, including the prompt execution of applicants for patents and assignments thereof.

I also recognize and accept that my employment with Snap-on Diagnostics carries with it an obligation on my part to avoid conflicts of interest. Toward that end, I agree not to serve as a director, partner or employee in any other business organization where such activity could:

- (1) promote activities competitive to, or otherwise damaging to, the objectives of Snap-on Diagnostics;
- (2) detract from the time and effort which the individual is reasonably expected to devote to his duties at Snap-on Diagnostics;
- (3) utilize Snap-on Diagnostics' resources, either property or know-how in the outside venture;
- (4) take advantage of my position at Snap-on Diagnostics in the conduct of the outside business; or
- (5) cause the outside venture to conduct business transactions with Snap-on Diagnostics in a manner which might be considered against the best interests of Snap-on Diagnostics.

I understand and acknowledge that any violation of this Agreement could cause immediate and irreparable injury to Snap-on Diagnostics. Violation of this Agreement will subject me to such action as Snap-on Diagnostics may deem appropriate, including discharge.

My signature below acknowledges that I understand the obligations imposed upon me by this Agreement, and I agree to comply with all the terms of this Agreement

Be sure to provide the U.S. APPLICATION NUMBER, FILING DATE, NAME OF APPLICANT, and TITLE OF INVENTION when inquiring about this application. Fees transmitted by check or draft are subject to collection. Please verify the accuracy of the data presented on this receipt. If an error is noted on this Filing Receipt, please write to the Office of Initial Patent Examination's Filing Receipt Corrections, facsimile number 703-746-9195. Please provide a copy of this Filing Receipt with the changes noted thereon. If you received a "Notice to File Missing Parts" for this application, please submit any corrections to this Filing Receipt with your reply to the Notice. When the USPTO processes the reply to the Notice, the USPTO will generate another Filing Receipt incorporating the requested corrections (if appropriate).

which is a CIP of 09/640,785 08/18/2000

Foreign Applications

If Required, Foreign Filing License Granted: 03/28/2003

Projected Publication Date: Request for Non-Publication Acknowledged

Non-Publication Request: Yes

Early Publication Request: No

Title

Vehicle-interactive system

Preliminary Class

701

**LICENSE FOR FOREIGN FILING UNDER
Title 35, United States Code, Section 184
Title 37, Code of Federal Regulations, 5.11 & 5.15**

GRANTED

The applicant has been granted a license under 35 U.S.C. 184, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" followed by a date appears on this form. Such licenses are issued in all applications where the conditions for issuance of a license have been met, regardless of whether or not a license may be required as set forth in 37 CFR 5.15. The scope and limitations of this license are set forth in 37 CFR 5.15(a) unless an earlier license has been issued under 37 CFR 5.15(b). The license is subject to revocation upon written notification. The date indicated is the effective date of the license, unless an earlier license of similar scope has been granted under 37 CFR 5.13 or 5.14.

This license is to be retained by the licensee and may be used at any time on or after the effective date thereof unless it is revoked. This license is automatically transferred to any related applications(s) filed under 37 CFR 1.53(d). This license is not retroactive.

The grant of a license does not in any way lessen the responsibility of a licensee for the security of the subject matter as imposed by any Government contract or the provisions of existing laws relating to espionage and the national security or the export of technical data. Licensees should apprise themselves of current regulations, especially with respect to certain countries, of other agencies, particularly the Office of Defense Trade Controls, Department of State (with respect to Arms, Munitions and Implements of War (22 CFR 121-128)); the Office of Export Administration, Department of Commerce (15 CFR 370.10 (j)); the Office of Foreign Assets Control, Department of Treasury (31 CFR Parts 500+) and the Department of Energy.

NOT GRANTED

No license under 35 U.S.C. 184 has been granted at this time, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" DOES NOT appear on this form. Applicant may still petition for a license under 37 CFR 5.12, if a license is desired before the expiration of 6 months from the filing date of the application. If 6 months has lapsed from the filing date of this application and the licensee has not received any indication of a secrecy order under 35 U.S.C. 181, the licensee may foreign file the application pursuant to 37 CFR 5.15(b).

DECISION GRANTING
STATUS UNDER
37 CFR 1.47

This Decision is in response to a Petition Under 37 C.F.R. 1.47(a), filed APRIL 28, 2003, to allow the other inventor(s) to proceed with the application on behalf of himself or herself and the nonsigning inventor.

The petition is granted.

The above-identified application and papers have been reviewed and found in compliance with 37 CFR 1.47(a). This application is hereby accorded Rule 1.47(a) status.

Petitioner has shown that the non-signing inventor, Sam Chang, refuses to join in the application.

As provided in Rule 1.47(a), this Office will forward notice of this application's filing to the non-signing inventors at the addresses given in the Petition. Notice of the filing of this application will also be published in the Official Gazette.

The application file is being returned to the Office of Initial Patent Examination for continued processing.

Telephone inquiries related to this decision may be directed to the undersigned at (703) 305-0014.

LETTER

In re Application of: :
Michael Kapolka, Sam Chang, :
Kevin Williams, Brian Crull and :
Dennis Essenmacher :
Application No. 10/358,637 :
Filed: February 5, 2003 :
Title of Invention: VEHICLE-INTERACTIVE :
SYSTEM :

Dear Mr. Chang:

You are named as a joint inventor in the above-identified United States patent application filed under the provisions of 35 U.S.C. 116 (United States Code) and 37 CFR 1.47(a), Rules of Practice in Patent Cases. Should a patent be granted on the application you will be designated therein as a joint inventor.

As a named inventor you are entitled to inspect any paper in the file wrapper of the application, order copies of all or any part thereof (at a prepaid cost per 37 CFR 1.19) or make your position of record in the application. Alternatively, you may arrange to do any of the preceding through a registered patent attorney or agent presenting written authorization from you. If you care to join the application, counsel of record (see below) would presumably assist you. Joining in the application would entail the filing of an appropriate oath or declaration by you pursuant to 37 CFR 1.63.

Telephone inquiries regarding this communication should be directed to the undersigned at (703) 305-0014. Requests for information regarding your application should be directed to the File Information Unit at (703) 308-2733. Information regarding how to pay for and order a copy of the application, or a specific paper in the application, should be directed to Certification Division at (703) 308-9726 or 1-800-972-6382 (outside the Washington D.C. area).

ASSIGNMENT AND AGREEMENT

FOR VALUE RECEIVED, we, Michael Kapolka of Sterling Heights, MI, citizenship U.S.A.; Sam Chang of West Bloomfield, MI, citizenship U.S.A.; Brian Crull of Clarkston, MI, citizenship U.S.A.; Kevin Williams of Milford, MI, citizenship U.S.A.; and Dennis Essenmacher of Royal Oak, MI, citizenship U.S.A., respectively, hereby sell, assign and transfer to **WPI Micro Processor Systems, Inc., 6405 Nineteen Mile Road, Sterling Heights, MI 48314** as assignee, and its successors, assigns and legal representatives, the entire right, title and interest, for all countries in and to certain inventions relating to

VEHICLE-INTERACTIVE SYSTEM

described in an application for Letters Patent of the United States,

_____ filed herewith,
~~xxxx~~ filed as U.S. Serial No. 60/354,673 on February 5, 2002

and all the rights and privileges under any and all Letters Patent that may be granted therefor

We request that any and all patents for said inventions be issued to said assignee, its successors, assigns and legal representatives, or to such nominees as it may designate.

We agree that, when requested, we will, without charge to said assignee but at its expense, sign all papers, take all rightful oaths, and do all acts which may be necessary, desirable or convenient for securing and maintaining patents for said inventions in any and all countries and for vesting title thereto in said assignee, its successors, assigns and legal representatives or nominees.

We authorize and empower said assignee, its successors, assigns and legal representatives or nominees, to invoke and claim for any application for patent or other form of protection for said inventions filed by it or them, the benefit of the right of priority provided by the International Convention for the Protection of Industrial Property, as amended, or by any convention which may henceforth be substituted for it, and to invoke and claim such right of priority without further written or oral authorization from us.

We hereby consent that a copy of this assignment shall be deemed a full legal and formal equivalent of any assignment, consent to file or like document which may be required in any country for any purpose and more particularly in proof of the right of the said assignee or nominee to claim the aforesaid benefit of the right of priority provided by the International Convention for

Attorney Docket No. 65855-0068

the Protection of Industrial Property, as amended, or by any convention which may henceforth be substituted for it.

We covenant with said assignee, its successors, assigns and legal representatives, that the rights and property herein conveyed are free and clear of any encumbrance, and that we have full right to convey the same as herein expressed.

Signed at Sterling Heights, Michigan this 11th day of March, 2002.

EXHIBIT K

ASSIGNMENT

ASSIGNMENT made this 20th day of December, 2002, by WPI MICRO PROCESSOR SYSTEMS, INC., a New Hampshire corporation (the "ASSIGNOR"), to NNT, INC., a Wisconsin corporation (the "ASSIGNEE").

WHEREAS, WPI MICRO PROCESSOR SYSTEMS, INC., its parent, NEXIQ TECHNOLOGIES, INC. ("NEXIQ"), and another NEXIQ subsidiary, DIVERSIFIED SOFTWARE INDUSTRIES, INC., filed chapter 11 petitions on October 11, 2002 (the "Petition Date") commencing Case Nos. 02-63996, 02-63994, and 02-63998 (the "Chapter 11 Cases") before the United States Bankruptcy Court for the Eastern District of Michigan, Hon. Walter Shapero, (the "Bankruptcy Court").

In consideration of the payment by ASSIGNEE to ASSIGNOR of the sum of One Dollar (\$1.00), the receipt of which is hereby acknowledged, and for other good and valuable consideration, ASSIGNOR hereby sells, assigns and transfers to ASSIGNEE and its successors and assigns the entire right, title and interest for the United States and its territorial possessions and in all foreign countries, including all rights to claim priority, in and to any and all improvements which are disclosed in the invention entitled:

VEHICLE-INTERACTIVE SYSTEM

and which is found in provisional U.S. Patent Application Serial No. 60/354,673, filed on February 5, 2002, and any improvements thereto, and any legal equivalent thereof in a foreign country, including the right to claim priority, and, in and to, all applications filed and Letters Patent to be obtained for said invention by the above applications or any continuations, continuations-in-part, divisionals, renewals, or substitutes thereof, and as to letters patent any reissues, re-examinations, or extensions thereof, and including all rights of action in relation to any infringement of the Patent by third parties at or prior to the date hereof, to be held and enjoyed by ASSIGNEE for its own use as fully and entirely as to same would have been held and enjoyed by ASSIGNOR had this Assignment not been made.

ASSIGNOR hereby covenants that no assignment, sale, agreement or encumbrance has been or will be made or entered into which would conflict with this assignment.

ASSIGNOR further covenants that ASSIGNEE will, upon its request, be provided promptly with all pertinent facts and documents relating to said invention and said Letters Patent and legal equivalents as may be known and accessible to ASSIGNOR and will testify as to the same in any interference, litigation or proceeding related thereto and will promptly execute and deliver to ASSIGNEE or its legal representatives any and all papers, instruments or affidavits required to apply for, obtain, maintain, issue and enforce said application, said invention and said Letters Patent and said equivalents thereof which may be necessary or desirable to carry out the purposes thereof.

EXHIBIT L

DECLARATION AND POWER OF ATTORNEY FOR PATENT APPLICATION

As a below named inventor, I hereby declare that:

My residence, post office address and citizenship are as stated below next to my name.

I believe I am an original, first and joint inventor of the subject matter which is claimed and for which a patent is sought on the invention entitled:

Vehicle-Interactive System

the specification of which is attached hereto unless the following space is checked:

☒ was filed on February 5, 2003 as United States Application Serial Number 10/358,637.

I hereby state that I have reviewed and understand the contents of the above-identified specification, including the claims, as amended by any amendment referred to above.

I acknowledge the duty to disclose information which is material to patentability as defined in 37 CFR § 1.56.

I hereby claim foreign priority benefits under 35 U.S.C. § 119(a)-(d) or § 365(b) of any foreign application(s) for patent or inventor's certificate, or § 365(a) of any PCT international application which designated at least one country other than the United States, listed below and have also identified below, by checking the box, any foreign application for patent or inventor's certificate, or PCT international application having a filing date before that of the application on which priority is claimed.

Prior Foreign Application(s):

	<u>Number</u>	<u>Country</u>	<u>Day/Month/Year Filed</u>
1.			
2.			

I hereby appoint the practitioners associated with the Customer Number provided below to prosecute this application and to transact all business in the Patent and Trademark Office connected therewith, and I direct that all correspondence be addressed to that Customer Number.

Customer Number: **020306**

Principal attorney or agent: **Julian F. Santos**

Telephone number: **312-913-0001**

I hereby declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code and that such willful false statements may jeopardize the validity of the application or any patent issued thereon.

EXHIBIT M

ASSIGNMENT

Case No.: 03-050

Serial No.: 10/354,673

Inventors: Michael Kapolka, Sam Chang, Kevin Williams, Brian Crull, Dennis Essenmacher, and Tracy Meade

Date of Execution

of Application: February 5, 2003

Filing Date: February 5, 2003

In consideration of One Dollar (\$1.00) and other good and valuable considerations in hand paid, the receipt and sufficiency whereof are hereby acknowledged, the undersigned hereby assign to:

NTT, Inc., a corporation of the State of Michigan

its successors and assigns, the entire right, title and interest in the invention or improvements of the undersigned disclosed in an application for Letters Patent of the United States, entitled:

and identified as:

Vehicle-Interactive System

in the offices of McDONNELL BOEHNNEN HULBERT & BERGHOFF and in said application and any and all other applications, both United States and foreign, which the undersigned may file, either solely or jointly with others, on said invention or improvements, and in any and all Letters Patent of the United States and foreign countries, which may be obtained on any of said applications, and in any reissue or extension of such patents, and further assigns to said assignee the priority right provided by the International Convention.

The undersigned hereby authorize and request the Commissioner of Patents and Trademarks to issue said Letters Patent to said assignee.

The undersigned hereby authorize and request the attorneys of record in said application to insert in this assignment the filing date and serial number of said application when officially known, and the date of execution of the application.

The undersigned warrant themselves to be the owners of the entire right, title and interest in said invention or improvements and to have the right to make this assignment, and further warrant that there are no outstanding prior assignments, licenses, or other encumbrances on the interest herein assigned.

For said considerations the undersigned hereby agree, upon the request and at the expense of said assignee, its successors and assigns, to execute any and all divisional, continuation and substitute applications for said invention or improvements, and any necessary oath, affidavit or declaration relating thereto, and any application for the reissue or extension of any Letters Patent that may be granted upon said application and any and all applications and other documents for Letters Patent in foreign countries on said invention or improvements, that said assignee, its successors or assigns may deem necessary or expedient, and for the said considerations the undersigned authorize said assignee to apply for patents for said invention or improvements in its own name in such countries where such procedure is proper and further agree, upon the request of said assignee, its successors and assigns, to cooperate to the best of the ability of the undersigned with said assignee, its successors and assigns, in any proceedings or transactions involving such applications or patents, including the preparation and execution of preliminary statements, giving and producing evidence, and performing any and all other acts necessary to obtain, maintain and enforce said Letters Patent, both United States and foreign, and vest all rights therein hereby conveyed in the assignee, its successors and assigns, whereby said Letters Patent will be held and enjoyed by the said assignee, its successors and assigns, to the full end of the term for which said Letters Patent will be granted, as fully and entirely as the same would have been held and enjoyed by the undersigned if this assignment had not been made.

McDonnell Boehnen Hulbert & Berghoff LLP
300 South Wacker Drive
Chicago, IL 60606
Issue Number: n/a
Issued Date: n/a
MBHB Case No.: 03-050-E
Snap-On Invention No.: NNT-01867

Dear Hass,

Thanks for signing and returning the paperwork for the application entitled Wireless Communication Framework. However, I have not yet received the executed paperwork for the above-listed application. As you may recall, I had to send to you an updated set of paperwork because Mr. Williams' name was inadvertently left off the original paperwork. You signed the original paperwork, so no additional work (besides the execution of the documents) is needed. Please execute the attached assignment, and declaration and power of attorney as soon as possible.

After executing the paperwork, please fax (or scan and e-mail) the signed paperwork to me as soon as possible because I need to file them with the Patent Office by December 27, 2004. After faxing the executed paperwork, please send the originals to me via regular mail.

If you do not have time to have the assignment notarized in the next day or two, please execute the declaration and power of attorney and get it back to me as quickly as you can. Then, please work on notarizing the assignment after the New Year.

03-050-E Patent Declaration &...
03-050-E Patent Assignment.pdf...

Thanks and enjoy the holidays,

Julian

PETITION FOR EXTENSION OF TIME UNDER 37 CFR 1.136(a)

ADDRESS TO:

**Commissioner for Patents
P.O. Box 1450
Alexandria, Virginia 22313-1450**

Attorney Docket No.: 03-050-E
Application No.: 10/823,271
Filing Date: April 12, 2004
First Named Inventor: Kapolka et al.
Group Art Unit: 3661
Examiner: TBD

This is a request under the provisions of 37 CFR 1.136(a) to extend the period for filing a reply in the above identified application to October 25, 2004.

The requested extension and appropriate non-small-entity fee are as follows (check time period desired):

- | | | |
|-------------------------------------|----------------------------------|------------|
| <input type="checkbox"/> | One Month (37 CFR 1.17(a)(1)) | \$ |
| <input type="checkbox"/> | Two Months (37 CFR 1.17(a)(2)) | \$ |
| <input type="checkbox"/> | Three Months (37 CFR 1.17(a)(3)) | \$ |
| <input checked="" type="checkbox"/> | Four Months (37 CFR 1.17(a)(4)) | \$1,590.00 |
| <input type="checkbox"/> | Five Months (37 CFR 1.17(a)(5)) | \$ |

☐ Applicant claims small entity status. See 37 CFR 1.27. Therefore, the fee amount shown above is reduced by one-half, and the resulting fee is: \$

☐ A check in the amount of the fee is enclosed.

☒ The Commissioner is hereby authorized to charge any fees which may be required or to credit any overpayment to Deposit Account Number 13-2490.

SIGNATURE OF APPLICANT, ATTORNEY, OR AGENT REQUIRED
